

Tips for Benny™Card Users

1. When you receive your Benny™Card, before you can use it to make qualified purchases, you will need to activate the card following the instructions provided with the card.
2. When you use your Benny™Card, you will not be required to send in your receipts at the time of purchase; but you must keep all documentation, so you can substantiate that the service was eligible for reimbursement, if requested to do so. For example, if the amount charged to the card does not match any claim in Educators' system, the IRS requires that the charges be documented as eligible expenses under a Flexible Spending Account.
3. The Benny™Card may only be used for reimbursement under the Health Care Account, not the Dependent Care Account.
4. The health care provider or pharmacist will swipe the Benny™Card through a MasterCard® machine, and the amount will automatically be deducted from your Health Care Account.
5. You may review your card activity at educatorsmutual.com.
6. The Benny™Card option may only be selected during your group's open enrollment period.
7. If you do select the Benny™Card option, you may still submit the "Reimbursement Form" and proper documentation to Educators for eligible items not purchased with your Benny™Card.

If you have any questions about your Educators Mutual Benny™Card please call customer service at 801.262.7475 or toll free at 800.662.5851.
